Greetings Citizens, We've had some questions about our recent focus on going bigger, more frequent and ambitious with our live stream content, so we thought we'd address some of those today. While we could do a whole long-winded feature on the subject, we thought we'd take a short, easy to understand approach, so you're in no way misunderstanding our motivations! We've learned a lot through our first few years of Star Citizen. We've learned a lot from you, our backers and fans. We've listened to your feedback on the game and how to improve it. We've learned a lot about how to better communicate with you and how to better give you the information and interact with you the way you want. So while our stream hasn't always been consistent in delivering a particular product, the development goals we've been chasing have been more than achievable for us, more than we'd expected, and we've been delivering those improvements to the game in real time and through

### **What's New in the AutoCAD?**

Improvements to the Markup features: The Markup Assistant is designed to make it easy to select, share and update existing annotated drawings and artifacts. A new Markup Menu makes

it easy to perform the most common Markup operations. Markups such as comments, dimensions, tolerances, symbols and text blocks can be updated with new drawing references and output formats. (video: 3:35 min.) Improved and accelerated Scaling functions: Improvements to how AutoCAD scales a drawing (for example, when printing, previewing or importing). These improvements mean that it's easier to correctly scale a drawing to any resolution. (video: 3:40 min.) Other notable updates: Improvements to the new 2D and 3D Measurements window: Improvements to the AutoCAD Setup System that make it easier to configure your system's settings. Easier management of multi-display setups. An improved Help System: AutoCAD is now more customizable and powerful. It's easier to manage your workspace and activate custom commands. The Guide Bar provides context-sensitive information when you click or enter a command. Greater efficiency and a new look for the Navigation Bar: AutoCAD has a redesigned Navigation Bar that makes it easier to use tools and commands. [SCREEN SHOT] This navigation bar enables you to choose an active tab (Tools, Home, Insert, etc.) and you can also choose to display or hide the ribbon. Shared Drawing Updates: Shared drawings in AutoCAD now automatically update with any drawings saved to the drawing server. Use the command-line command `asa` to update a drawing that was previously downloaded to your computer. [SCREEN SHOT] [SCREEN SHOT] Improved Ability to Browse and Open Files: The navigation bar includes the ability to easily browse and open files, including Dropbox, FTP, and other cloud-based sharing sites. The result is a faster way to find files and open them. [SCREEN SHOT] File Types: New file types that are more appropriate to the needs of architects and engineers. There are file types that automatically recognize patterns in how elements of drawings are arranged, based on object and line geometry. Audio: AutoCAD is now capable of rendering audio in MP3 format
